For me (Matt writing), the hard chrome International Curl Bar is more successful than an EZ bar achieving the objective of reducing strain on your wrists, rather than a straight bar. The reason, it's longer (measuring 1333mm) than an EZ bar with the grips appearing slightly wider and at less

Price: £62.50

<http://www.gymratz.co.uk/international-olympic-curl-bar>

First off, if you've found this page looking for trap bars (shrug bar, Gerard Trap Bar), please refine your search. The reason this bar's called a tricep & trap bar is the dual-use design, allowing regular tricep extensions/ skull crushers & narrow(ish) grip upright rows. Unusuall at a glance, but
